

STEELCRETE FOR MAGNETIC FINISHES

An industry leader for over 30 years the TecCrete system is the original concrete surface panel. It is now available for use with magnetically applied finishes and has become the leading choice for architects and developers who demand best in class performance and value for their critical building systems.

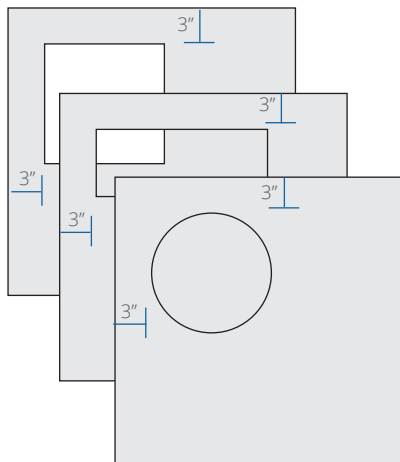

FEATURES

- Steel pan and concrete composite construction delivers industry leading static and dynamic loading performance
- Solid feel underfoot and high level of acoustical performance
- Steel topsheet for connection of magnetic finishes
- Height Adjustable from 3" - 60"
- Pedestal lock and positioning system for easier installation
- Flat bottom and uniform thickness maximizes under loor clearance
- 60% recycled content (LEED MR 4.1 & 4.2)
- Industry Leading 3 Year Standard Structural Warranty

STEELCRETE MAGNETIC

ACCESSORY CUT-OUTS

PERFORMANCE DATA TC MAGNETIC FINISH PANEL

Material Properties	TC 1250	TC 1500
Concentrated Load (min)	1250 psi	1500 psi
Uniform Load (min)	600 psf	700 psf
Rolling Load (10/10,000 Pass)	1300 lbs /900 lbs	1500 lbs /1250 lbs

UNDERSTRUCTURE

Bolted stringer and corner-lock systems

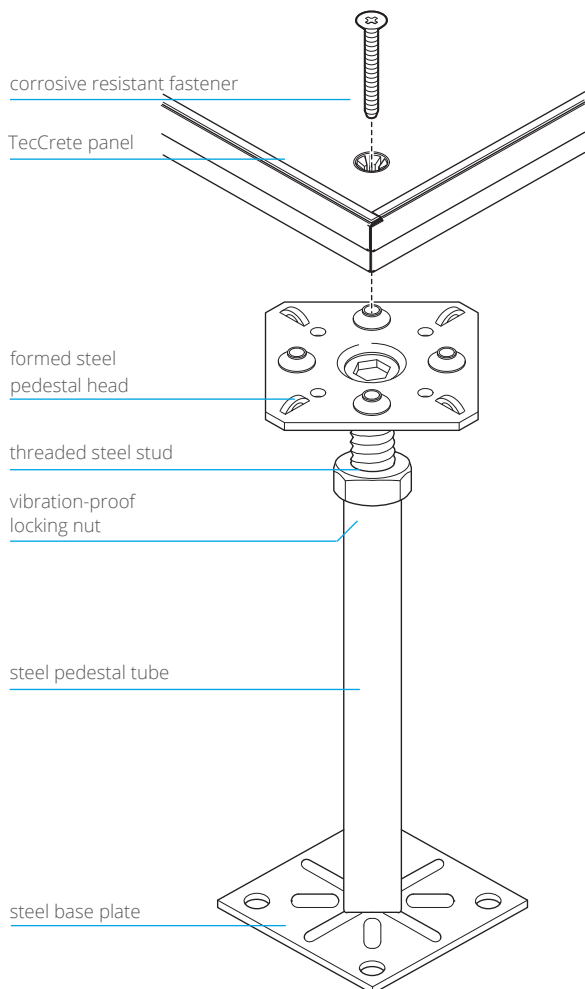

PANEL DIMENSIONS

Imperial - 24" x 24"

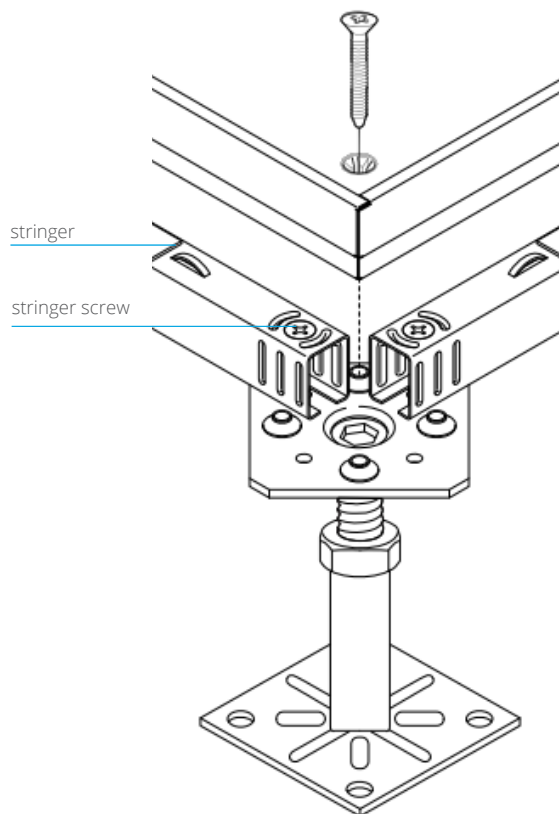

THICKNESS

Nominal 1.125"

CORNER-LOCK SYSTEM

BOLTED STRINGER SYSTEM
